

Erghrim

The Erghrinian people drew the short straw in their arrival to Remith.
Stranded in deserts and craggy mountains, and persevered despite the hostile conditions.

Erghrinians rake the mountains and drink the seas.
They remain when others fall.

Erghrim has evolved into a military autocracy over time.
Political power is attained and maintained by advancing through the military hierarchy.
Citizens are encouraged to serve within the military.

Erghrim uses Requisition scripts as currency, forgoing conventional dollars.
This makes traveling beyond the country's borders challenging for the average citizen, as foreign currency must be obtained without a direct exchange method.
